Steve and Julie Kramer

## CLASS OF 2003

**Jay Bailey** earned a D.Min. in Urban Development and Intercultural Communication

## AGTS Alumnus Serves as National Representative for Jewish Ministries

After 18 years as home missionaries, planting three Messianic congregations in California and New York, the Gannons moved to Jerusalem, Israel, in 1989, and founded Israel College of the Bible ([www.israelcollege.com](http://www.israelcollege.com)).

In fall 2003, the Gannons returned to the United States so Ray could fill a newly created position—national representative for Jewish ministries—in the A/G’s Home Missions Department. They have since established Israel’s Redemption, an evangelism ministry ([www.allisrael2020.org](http://www.allisrael2020.org)).

Gannon’s vision is to see 101 major American Jewish population centers (minimally 11,000 Jews) evangelized and disciplined by A/G churches. To that end, Gannon’s team is preparing in-depth community profiles for all 101 centers. Thirty-five such profiles are now available. Israel’s Redemption also conducts Jewish evangelism training seminars, several of which are available in a self- or group-study format.

He continues to serve as visiting professor of missions and Jewish studies at AGTS.
